BEFORE YOU START

It is extremely important that these instructions are read carefully and illustrations studied before commencing installation. Please retain these instructions for future reference.

WARNING

- Electricity can be dangerous.
- Do not attempt to fit installation unless you are competent.
- If in any doubt consult a qualified electrician to complete electrical installation.
- Installation to comply with current CE wiring regulations.
- The lighting is for use in a normal dry domestic indoor environment.
- If you find any damage to the external cables, and electrical parts, please ask a qualified electrician to replace it.

1 × Main Body

2 × Raw Plugs

2 × Wall Screws

Installation

- Take care when handling and installing to avoid damage to the product.
- Avoid mounting the fitting on a damp surface such as newly painted or plastered area as this may cause discoloration of the finish.

Tools

- Cross headed screwdriver

Cleaning Instructions and Care

- Take extra care when cleaning and assembling.
- Do not use any chemical or abrasive agents to clean the shade.

General Assembly

1. Make sure that the power source is still accessible. Drill the surface to fit the ceiling mounting light using the metal bracket to locate the holes position.

2. Screw the metal bracket onto the ceiling using the self-tapping screws and raw plugs if necessary.

3. Using the connector block to connect to the mains power supply as shown below.

4. Fix the ceiling base onto the bracket and hide the cable, fixings and power connection inside.

5. Put the bulb into the lampholder.

Bulb Replacement

- 60W E27(screw type) bulb.
- Dispose of old bulbs with care.

Your light is now ready for use.
